***Detailed Actions***

Preliminary amendment received on 5/04/2005 is entered.

The Specification is amended.

Claims 1-7 are cancelled.

Claims 8-14 are entered.

Claims 8-14 are pending in the application.

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In Claim 8 on line 10, replace "busterminals" with --bus terminals--.

***Allowable Subject Matter***

2. Claims 8-14 allowed.

**The following is an examiner's statement of reasons for allowance:**

3. Independent Claim 8 is allowable because none of the prior art of record disclose protective circuit for protecting a CAN bus transceiver configured to operate in a first voltage vehicle against overvoltage, when operated in a second voltage vehicle, comprising two diodes connected between the bus terminals of the transceiver, wherein the diodes having cathodes connected to one another and to a predefined potential, and two current-mirror circuits for restoring voltage levels reduced by limiting resistors on bus lines in combination with the other claim limitations.

4. Claims 9-14 are dependent on allowable Claim 8 and therefore allowable.

***Comments to reasons for allowance***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
